SPECIAL PROGRAM FIELD CAPABLE CLINICAL SERVICES & WELLNESS CENTER

Attention: DMH Directly-Operated and
Contract Providers

Revised: 3/22/2010

STOP – Impact on You

In addition to Special Programs such as ACT, AB34, FSP-Adult, FSP-Older-Adult, FSP-Child, FSP-TAY and Foster Care that are currently in the Integrated System (IS), two new programs have been added to the IS Special Program Designation field. The new program designation categories will allow providers to identify clients who are participating in Field Capable Clinical Services (FCCS) or Wellness Center programs, both of which are funded through the Mental Health Services Act (MHSA).

Effective September 27, 2007, the following program names are available in the Special Program Designation field:

1. FCCS
2. Wellness Center

CAUTION – What You Need to Know

You can find the two new programs along with the seven other existing programs listed in the drop down menu of the Special Program on the “**Other**” tab of the Client Info screen.

Once a Special Program is selected for a client by a provider approved to deliver one of the programs above, the message “**LAMH400 CALL SFPR WITHIN ONE WORKDAY TO COORDINATE SERVICES**” will be returned on the Client Info screen.

When opening a new episode for a client, the message “**This is a <Special Program Name goes here> client. You must contact <Special Program Name> provider within one workday to coordinate services. For provider SFPR**

telephone number, see the SFPR icon on the Find Client results screen displays on the “Admission” tab of the Open Episode screen to alert the admitting provider.

GO – What You Need to Do

If you admit a client that is enrolled in a Special Program you must contact the SFPR within one work day to coordinate services.

To view the SFPR phone number, you must return to the Find Client screen and invoke the client search by *Custom Criteria* (**DO NOT search by DMH ID**). Enter the client’s last name, first initial (**DO NOT ENTER THE FULL FIRST NAME**), age, and gender, and click “Search.” An icon  will display in the SFPR column of the matched client on the Find Client Results screen. Click on  to obtain the phone number and the program name.
